ELECTIVE COURSES (5 courses/20 units)

INTERNSHIPS – Students in the MPH/MPP program are required to do two internships—one in Health Policy and Management and another in Public Policy. The Health Policy and Management internship is 400 hours (10 weeks) and will be completed in a health care organization during the second summer. It is linked to the HLT POL 400 Field Studies course in the subsequent Fall quarter where students prepare a problem-solving consulting report with managerial recommendations.

- **Courses that apply toward the degree MUST be taken on a letter-graded basis.**
- Some of these required courses may be waived upon review and approval from the program director. However, **no unit credit is awarded for waived classes.** *Students must take an elective course (200-level or above for a grade) to fulfill unit requirements.*

* HLT POL 439 may be waived via Blue Petition if the student passes the waiver examination administered during Orientation. These units do not need to be replaced by elective units. For students who waive out of HLT POL 439, they will be required to take 13 courses for total of 56 units to confer the MPH degree.

For MPP Program Requirements: contact Luskin for a summary of their MPP degree requirements.
